

Advancing the Well-Being of Our Communities Through Collaboration

Renee Cinar

Manager | Asset Strategy Integration | Portfolio Management Office
Southern California Edison

12/3/2020

SCE IS COMMITTED TO LOWERING BARRIERS TO CLEAN ENERGY TECHNOLOGY

- We ensure equitable deployment of clean energy technology and solutions supporting Disadvantage Communities (DACs)
- We work closely with community-based organizations (CBOs) to align on common goals

HOW TO ENGAGE AND COLLABORATE WITH SCE

- Provide feedback on proposed project concepts – *coming soon to sce.com*
- Join the Clean Energy Access Working Group
- Submit your ideas or letter requests through SCE IDEAs
- Connect us with your students

THE GREENLINING INSTITUTE AND SCE CO-FACILITATE THE CLEAN ENERGY ACCESS WORKING GROUP

- Forum for long-term collaboration and strategic community engagement
- Convenes key stakeholders to design, plan, and implement demonstration projects to model the necessity of community-led approaches for clean energy in DACs

Contact: Carolyn Sims
Senior Policy Engagement Advisor
carolyn.sims@sce.com

Energy for What's Ahead®

WE ENCOURAGE COMMUNITY MEMBERS TO SHARE THEIR IDEAS

Innovation creates new opportunities with communities, technology partners, and more

- Share your grid, demand response, energy efficiency, and wildfire mitigation technologies and ideas
- Request a letter of support or commitment
- www.sceideas.com

Contact: Aja Clarke
Senior Manager Technology Engagement
aja.clarke@sce.com

HOW TO CONNECT YOUR STUDENTS

- SCE engages with students from DACs to share knowledge
 - clean energy technology
 - electrical safety
 - inspire bright students to consider engineering careers
- SCE supports their journey through
 - community outreach events
 - lab tours
 - college scholarships
 - internships

Thank you!
